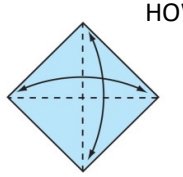
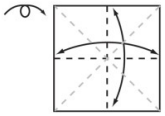
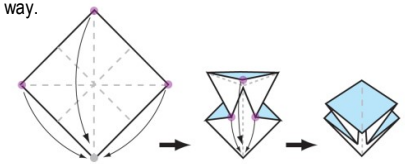
HOW TO FOLD A CRANE



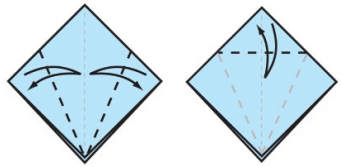


1. Start with square paper printed side up, fold forward in half and open. Then fold in half the other way.

2. Turn the paper over to the back and fold across and open. Then fold in half the other way.

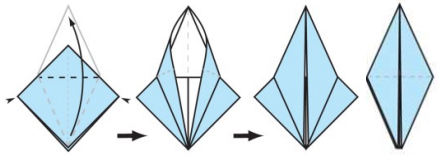


3. Fold the paper forward on the printed centre line and bring in the two side corners – the word FRONT should be at the front.

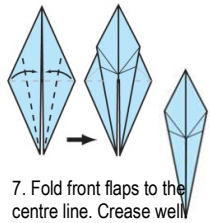


4. Fold in the corners to the centre line on the front and the back.

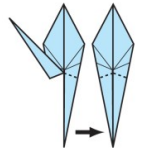
5. Fold top of square down, crease well and unfold.



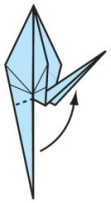
6. Open side flap and lift bottom point up and fold in sides. Crease well.
Turn over and do the same on the back.



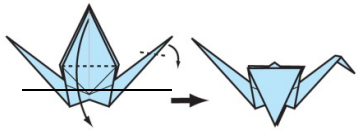
7. Fold front flaps to the centre line. Crease well.
Turn over and do the same on the back.



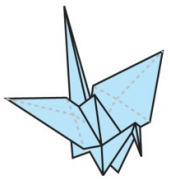
8. Fold up both legs and crease well.
Unfold.



9. Fold the legs upwards on the inside on the creases that you just made.



7. Fold down wing flaps on both sides. I prefer to fold mine a little lower than the dotted line. Fold over head. You should now be able to see your name and the logos on the underside of the wings.



CONGRATULATIONS!
Now bring it to who what why to help us make wishes come true.
